Planer Blades

Application: for P 282, P 382, P 3110, P 3180

Planer blades are used for accurate removal of small amounts of wood from flat surfaces where a saw is not a suitable option.

Mn 65 - Blades made of steel with a manganese component, highly resistant to wear.

HSS - Blades forged from a premium grade of high speed steel. Extreme sharpness and resistance to abrasion and wear.

TCT - Highest quality planer blades made of tungsten carbide, extremely hard and aggressive with incredibly long life. They stay sharp much longer than blades made of steel or high-speed steel.
