

- Measures distance
- Measured data accumulation
- Area measurement and calculation
- Volume measurement and calculation
- Staking out of constant distances
- Data storage
- Reference setting
- Large, easy-to-read LCD display with backlight
- Metric and British system conversions
- Level
- Softgrip for comfortable operation
- Protective case

Technical Data

Model:	LDD 60
Range:	50 mm – 60 m
Measuring accuracy:	±1.5 mm
Laser wavelength:	635 nm
Laser class:	2
Laser power:	≤ 1mW
Automatic power off:	after 180 sec
Operating temperature range:	0°C ~ +40°C
Storage temperature range:	-20°C ~ +60°C
Power source - batterie (AAA-size)	2 x 1.5V DC
Dimensions (width / length / height)	63 / 145 / 35 mm
Weight	0.190 kg
Cat. N	20009860000
