

- Ultrasonic distance detector with laser point
- Measures distance
- Multiplication to calculate area, volume
- Addition operation of length
- Accumulate operations of area measurement
- Accumulate operations of volume measurement
- Red laser alignment
- Low battery indicating
- 0~50°C temperature compensation
- Automatic power off after 60 sec
- Metric and British system conversions
- Large, easy-to-read LCD display
- Level

### Technical Data

<b>Model:</b>	<b>UDD 16</b>
Distance range:	0.5 – 16 m
Precision of ranging:	±0.5%
Measurement Accuracy:	±1°C
Resolution of ranging:	0.01m
Laser wavelength:	650 nm
Laser class:	≤1 mW
Laser power:	2
Power source - batterie	9 V DC
Weight	0.146 kg
Cat. N	20009860100
