

- Ultrasonic distance detector with laser point
- Measures distance
- Automatically continuous distance measuring
- Distance calculation, length, area, volume accumulation
- Laser point / straight line for direction guidance when measuring
- Detects metal tubes in walls
- Detects active circuit with AC 220V or more in deep walls
- Detect light wood and deep wood
- Measures ambient temperature
- Metric and British system conversions
- Large, easy-to-read LCD display with backlight
- Level
- Low-battery indication
- Manual & Automatic (after 30 sec) power off

Technical Data

Model:	MFD 16
Range:	0.5 – 16 m
Measuring accuracy:	99.50%
Laser wavelength:	650 nm
Laser class:	≤1 mW
Laser power:	2
Max. depth of detecting metal:	copper ≥19 mm; iron pipe ≥38 mm
Max. depth of detecting AC power supply:	≥38 mm
Max. depth of detecting light wood:	≥19 mm
Max. depth of detecting deep wood:	≥32 mm
Operation ambient temperature:	0°C ~ +40°C
Power source - batterie	9 V DC
Weight	0.190 kg
Cat. N	20009860200
